SPOTLIGHT

Annual North Texas Muster

On May 5, 2007, Texas Fire Museum hosted our 16th Annual North Texas Muster. Although our apparatus numbers were down from past years, nonetheless we flowed water smoothly, and the wind ensured that a "wet" muster occurred.

Once again, our annual event was held at Fish Trap Park located just 3 miles from the museum. We welcomed guests from Indiana, New Mexico, Ohio and Oklahoma to the muster as well as our brethren from the East Texas Chapter in Tyler.

Special kudos go out to TFM President David Rounsley for his culinary prowess on the grill both at the muster site and the clean up and fellowship gathering afterward. The small talk and chit chat overheard revealed that this may have been the best muster in years.

Congratulations to the following award winners: Best of Show-Stefano Andreucci's

1972 Ward LaFrance Pumper; Judges Choice & Longest Distance Traveled- Lawrence Harman's 1968 GMC-John Bean Pumper; President's Choice- Keith Kelly's 1961 900 Series American LaFrance Aerial; First Water-Scott Simpson's 1962 Mack B-85 Pumper; and Most Impressive Pumping-Lindsay & Richard Dye's 1961 Mack C-95 Pumper. Thanks also to TFM Director Garry Sande and TFM Members Trina Falk and Mario Silva for all of the photos of this event.
